### **SUMMARY**

Enthusiastic and detail-oriented Full-Stack Developer with knowledge of HTML, CSS, JavaScript, React.js, Bootstrap, jQuery, Java, MySQL, C, and C++. Skilled in designing responsive web applications and eager to contribute to dynamic development projects. Quick learner with strong problem-solving skills and a passion for building user-friendly solutions.

### PROJECTS

- **Villa Search Website** – HTML5, CSS3
- Designed a responsive platform for searching and viewing villas, complete with detailed descriptions.
- **Cafe Website** – HTML5, CSS3
- Developed an engaging website for a café, featuring its menu and special offers.
- **To-Do List** – JavaScript
- Built a dynamic task manager, enabling users to add, delete, and mark tasks as complete.
- **Weather App** – JavaScript (API Integration)
- Integrated a weather API to retrieve and display real-time weather updates.
- **iOS Center Website** – React.js
- Created an interactive web application to showcase iOS services and design offerings.
- **Portfolio Website** – React.js
- Developed a personal portfolio to highlight skills and showcase various projects.
